WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded from directions of Professor Stone in combining the Oil and Lime so perfectly that the taste of the Oil which is nauseous to persons generally, is entirely overcome and it can be taken by the most delicate females with pleasure And as regards the benefit of this article over the clear oil the following case by Prof Stone is sufficient to convince the most skeptical The young lady was twenty-four years of age

Her disease was one of unmistakable phthisic which had been expected to terminate in the course of a few months fatally The upper part of both her lungs was filled with tubercles and her sputa matter were long and offensive The case was evidently fatal to her The treatment of Cod Liver Oil was at first used but without marked improvement The Phosphate of Lime was then administered with the Oil and the result as in the case of many others was apparent the expectoration was readily checked

Caution—On account of the great reputation of this Compound for all Lung complaints the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner Therefore to insure obtaining the genuine none except that manufactured by

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century whereby and thereby facilitating the labor of men by machinery and other modern implements, hundreds have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense This Iron combines economy convenience, saving of labor and despatch, one dollar's worth of dry charcoal supplies fuel for a whole day's constant ironing Hard wood coal from the stove will answer the same purpose It can be used in any room or in the open air Hatters' and Tailors' Irons are constructed upon the same principle and possess equal superiority

PROFESSOR ALEX. C. BARRY'S

TRICOPHEROUS, or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cuts bruises burns, stings, chapped hands, and all irritations of the skin A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement but the thousands who purchase use and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books and with them tenders his earnest and hearty thanks to his innumerable patrons

Professor Barry's accounts of sales for the year 1852, show that during that year about 910 000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100 000.

This plain, unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises burns, skin diseases, &c—it would not, of course be so universally in demand The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits

Sold in large bottles [price 25 cents] at wholesale and retail, at the manufactory and depot 197 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c

New Method of Cure!

B. F. HATCH, M. D,

Professor of Theory and Practice Obstetrics, Diseases of Women and Children, in the New England College of Physicians and Surgeons,

Has discovered a new method by which he is able to treat

All Diseases peculiar to Females,

—ALSO—

GENERAL WEAKNESS,

with universal success, and a cure can be accomplished in much less time than any heretofore practiced by any physician in New England

Dr H's method has never been equalled in point of PRACTICABILITY or SUCCESS, and however long standing the case may be or fruitless efforts may have proved the utmost may confidently expect relief Hundreds of cases might be referred to which would amply justify the above assertion

Consumption, Dyspepsia,

Diseases of the Spine, Liver, Heart Kidneys Larynx Bowels Blood Skin, all Nervous Affections Scrofula and Scrofulous Swellings

Fever Sores, Blood Diseases &c &c

are relieved in an incredible short space of time, and with remedies which are in perfect harmony with the constitution

This great improvement in the cure of disease establishes a new era in medical science and all who are in any way afflicted should avail themselves of its advantages

We could feel disposed to publish a long list of cures for no man no matter how ably prepared for the profession but what can boast of effecting cures and procure certificates of more possible individuals but will give the opinion of editors who are conspicuous before the public

Prof J R Buchanan in his Journal of Man says Dr Hatch is a bold but liberal reformer He is a graduate of the Eclectic Medical Institution, and is one of the most successful practitioners

Dr H is one of the most intelligent Physicians and deserves liberal encouragement for his skill and rare disinterestedness.—*Christian Freeman*

The general reader, of a work such as Prof H has published, would result in much public good, and we trust it may meet with a universal circulation.—*Boston Daily Bee*

Dr Hatch is truly one of the most skilful Physicians of Boston.—*Prof A W Daniels M D*

TESTIMONIALS

The following certificate from Dr John C Warren, of Boston was given 17 years since but will not forever

Boston, Jan 5 1853.

Having had occasion to observe the case of a person afflicted with Hernia I have suffered much from the want of a truss of sufficient compression to retain my rupture in accommodation, owing to the peculiar circumstances of the case which I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to the above articles.

JOHN C WARREN, M D

The undersigned having had the pleasure of becoming acquainted with the above named gentleman, in our capacity of Selectmen of Charlestown, was aware that he was a native of this place Mr Foster's father, Capt Charles Foster, of Charlestown, was master of the Poor house in that town for upwards of twenty four years, during which period Mr Foster resided with his father, and was familiar with the supervision of the inmates He has since been engaged in the business of Truss making, and we have no hesitation in saying that he is a skilful practitioner in this department, and is entirely worthy of confidence, with great success in the treatment of ruptures, which were for the most part of a very complicated and distressing character

It is with pleasure we call the attention of the afflicted to his establishment, as we feel confident that they will receive at his hands the most careful and judicious treatment, and the benefit of his long experience in the business and the improvements he has introduced in many instances, in our opinion, entitle him to the confidence of the community

Our experience has convinced us that Mr Foster has thoroughly attained to a knowledge of the principles of Dr J C Warren and other eminent surgeons which he has shown to us fully sustain the opinion we have expressed

☞ The Boston Journal of the 23d inst. contains an account of a desperate onslaught which a burglar made on the Saturday night previous, in the town of Stowe, Mass., on the persons of Mr. Sewall Bent and his wife, parents of Mr. Bent in this city—Mr. Bent is over seventy years of age, and his wife nearly of the same age. At about nine o'clock in the evening a man attempted to break into the house through a window. Mr. Bent went to the window, when the fellow struck at him with a club. Mrs. Bent immediately seized a horn for the purpose of arousing the neighbors, when the burglar struck through another window, knocking the horn from her hand, but her screams had aroused a neighbor, who has tened to their assistance; but before he arrived the burglar had succeeded in getting into the house, had knocked down Mr. Bent, who defended himself with a chair, and had seized Mrs. Bent and endeavored to choke her—When Mr. Stevens, the neighbor, arrived, he had a contest with the burglar, and his head was badly cut. Other persons soon came, and the ruffian escaped. Mr. and Mrs. Bent suffered no serious injury, nor did the burglar succeed in robbing the house, as he doubtless intended to do.

☞ The Mechanics' Association of Portland have been bestowing their hospitalities upon their friends of Montreal, who have been making them a visit. A grand social union was held at the City Hall in the evening, and the next day a steamboat pleasure excursion down the harbor, and among the beautiful Islands. The company was composed of ladies and gentlemen in about equal proportions. Portland people always look out for that matter and supply good partners, of either sex, to bring out even couples. We almost envy our Portland friends the good time they are having, but by and by, the Bangor and Waterville Railroad will be completed, and then will come our turn.

☞ The Sabbath School connected with the First Baptist Church, had a splendid Pic Nic at Campbell's Hill on Thursday. We expected that some one would *favor* us with an account, but owing to some unfavorable cause the company were not favored with the favorable company of our correspondent, and of course he could not favor us with any favorable account of what he had no favorable opportunity to observe. We hope that both the company and ourselves may be better favored next time.

☞ The City Marshal on Thursday seized six barrels of strong beer on the wharf. These casks were shipped at Boston for Searsport where a new direction was added and they were sent to this city and are now in the city lock up. These with previous seizures of liquors amount to sixty-eight casks within the last fortnight. This is doing pretty well. The steamboat officers and agents and the captains of Packets are now taking the right stand, of treating all freight alike.

☞ The pure Democracy of blending Waldo, after an ineffectual effort on the part of the the two branches to divide the offices between the Barnburners and the Wild Cats, and after a violent struggle for supremacy in Convention—finally separated, and each section nominated candidates of its own stripe. Ithas hinted that the Journal will ably and honest support both tickets!!

☞ The members of the Montreal Mechanics' Institute, have agreed to unite with the members of the Portland Mechanics' Association in rebuilding or repairing the monuments in the Portland Cemetery, erected to the memory of Com. Blythe and Lieut. Burroughs, who fell in the sea fight between the Enterprise and the Boxer.

On the 14th inst., at Lasalle, Ill., a drunken man, named Cooley, stabbed three men, two of whom have died of their injuries. Cooley has since fled from justice, and a reward of $400 is offered for his apprehension. He is an Irishman, about thirty years of age.

A full slipper ship of 1800 tons was launched from the yard of A. & A. Austin, in Damariscotta on Monday the 7th instant.

The Boston Atlas states that the Scotch citizens of Boston have made arrangements to bring to this country from Glasgow, the Rev Mr. Muir, one of the most talented and eloquent ministers of the Free Church of Scotland. He is expected to arrive about the last of September.

A despatch received at Louisville on the 24th from Jackson, Miss., says the yellow fever is prevailing to an awful extent in Vicksburg and Natchez, and every body who can possibly leave those cities, were going on.

To the Editor of the Whig and Courier.

I understand that stockholders of the Penobscot and Kennebec Railroad Company have, while under oath in an official capacity to protect *the interests of the city*, voted to sell to themselves at their own prices, about three acres of land, near Dunnett's Cove; a portion of which was too valuable to be the continuing resting place of the dead, who, while living, bought and paid for it, for a Cemetery for themselves, and those that should come after them, and in which thousands of them had been buried—some after having been twice buried before.

Another portion had been bought for a school house lot, and a building had been erected thereon, which must be provided for with another lot, and be removed to it. Now for what price do you think? Why six thousand dollars, to be paid some time when, with interest! Yet these same stockholders knew that *private citizens* would pay ten thousand dollars for the lot. In addition to this, the gravel hill on it is worth more in dollars to the city, than all they now get

Now if the gravel is worth	$ 6,300
and the lot,	10,000
which makes,	$16,000

what is the answer should the charge be made of swindling under oath?

Bangor, August 25.

RELIGIOUS SUMMARY.

Rev O. T. Lanphear of Derby Vt., will address the Society of Inquiry in Bangor Theological Seminary, at the Anniversary.

The Boston *Watchman and Reflector* of this week contains a very interesting communication of Rev J. W. Johnson, Baptist Missionary in Hong-kong. He gives a translation of a very remarkable document published by the insurgents, called the "Trinitarical Classic." The first and concluding portions seem to be a summary of Biblical History and Doctrines, the intermediate portions, an endeavor to bring the sanction of religion in aid of the rebellion, Christians still look for the results of this rebellion upon the progress of christianity in China and "the East," with the most intense interest. Let the united progress of all christendom go up that God may over rule all for his good.

The new Firman of the Sultan of Turkey is received with great joy by the Protestants. They see by that Firman granted greater privileges than by that of 1850. In civil rights they are *now on equal footing* with the Sultan's Mussulman subjects. The Armenian Patriarch even urges the Armenian subjects to treat the Protestants kindly inasmuch as they have gained the confidence of the Sultan.

Savoy Mission. The journal of Mr Thomas is of unusual interest. The cholera was raging fearfully in Savoy. Thos Bays in the English and Burmese Mission School had died of it. His tour was very interesting, and he met many Karen converts. The association met at Newville, Letters were received from twenty-two stations. Mr. Thomas at one Station performed the rite of baptism. As they went down to the water, "There stood nineteen waiting converts, of whom five were old men, one on the very brink of the grave, and one was a little girl hardly ten years, the daughter of Christian parents. The banks were covered with villagers, it was a happy scene. It was good day for the church of Christ.

Nurpore. This mission has met with a sore trial in the recent death of Rev G. Daubie by cholera. He was a devoted missionary and a fine Scholar. At his death he was engaged in translation of Dr. Bart's Bible Histories into Assamese.

Karen Mission. The eleventh anniversary of the Maulmain Baptist Association was held with the church a Dong-yan on Jan 26th and 27th. There are fifteen churches belonging to the Association. The meeting was smaller than usual on account of cholera. Yet some three hundred of the heathen were present.

Bassas. Mr Shermen speaks of the sickness of some three or four members of this mission. Yet amid all this, can bless God that he is permitted to labor for the good of the Africans. Says he, "none of our number regret coming to Africa, but bless God he has inclined us to come to this degraded people."

Rev John Irwin, late of Montreal, has been chosen to the rectorship of St. John's Church East Boston.

Father Gavazzi and Arch Bishop Hughes have been at Saratoga. The orator has been lecturing on the system of Romanism; the latter consecrating a Romish Church. Young Father Wolworth, son of Chancellor Wolworth is the Romish Priest at this place.

Mr Samuel Cole was ordained pastor of the Baptist Church in Belfast 27th July.

In Burlington, Vt., there have been remarkable conversions to Protestantism eight adults in one day having publicly renounced the church of Rome. Two of them are educated men and one was a conspicuous Bible burner in Champlain some years ago. Since the 5th of March eighty-two have left the church of Rome in St. Pauls, Bermondsey.

The Duchess of Hamilton has gone over to the church of Rome, as was long expected. The Duke is expected to go over soon. This is the result of Tractarianism, which with High churchism would almost seem the Appian way to Rome.

Bishop McIlvaine of Ohio has returned from his European tour with health greatly improved.

The Bishop of Bath and Wells intends to resign his diocese on account of his great infirmity and difficulties beyond his control.

The Boston Pilot mentions the conversion of several members of the English Church, to the Romish Church and Meddly was recently received into communion of the Romish church near Southampton by Rev Mr Mount. In four years he has received seventeen converts from Protestantism to the bosom of the Romish church.

Perhaps at no former time has there been a stronger reason to hope for Ireland's release from the errors of Romanism than now. The Principles of Protestantism, of Evangelical truth is working out great results among the people of the *long priest ridden* country. Nearly one hundred thousand the past year left Roman and many of them have joined the Protestants.

An interesting revival of Religion is in progress in Alabama.

Rev Mr. Scott of Portland, who was ordained from his pastoral in that city to go to France has received and accepted a call from the Baptist Church in Fall River, Mass.

☞ The editors of the "State of Maine" have responded to our call upon them for information as to the means of getting from Montreal to Niagara Falls, in the following statement:

"There are two steamboat lines from Montreal to Niagara Falls and the west. The LAKE ONTARIO ROUTE through to Buffalo in 40 hours from Montreal has three steam packets the *Jenny Lind*, *British Queen*, and *British Empire*. One boat of this line sails daily at 5 o'clock P. M., and connects at Ogdensburgh with the American Express line to Lewiston and Toronto, and at Cape Vincent with all the boats running to Coburg, Toronto, &c on the British side.

The Office of the Company is at 24 McGill St Montreal. W. T. Barron, Agent.

THE ROYAL MAIL LINE, has four boats the *Miss Era*, the *St Lawrence*, *Ottawa*, and the *Lord Elgin*, which leave daily at 9 o'clock A. M., connecting with all the lines of steam boats on the upper lakes, and railways going west.

The Office of this Company, 40 McGill St Montreal, A. Milloy, Agent.

Travellers going west can take the railway for Ogdensburgh from Montreal and thence by steamboats &c.

We are assured that very shortly the Boarding System will be arranged so that passengers at Port Land can purchase tickets to any place in Canada or the west.

A SAD SIGHT. The following account of a scene in the police court, is from the Boston Post.

"Mary Jane Curtis acknowledged that she was a common drunkard. Her appearance—young beautiful, well dressed, dignified, almost to haughtiness, and an indication of being well educated and accomplished, together with tears freely shed, touched a veteran official, and led him to exclaim "There must be some mistake." But alas, it was too true—a native of a neighboring town with a home, education, accomplishments, everything to make her happy in an evil hour she fell, and all efforts to reclaim her have hitherto proved unsuccessful. A few weeks since she was found upon the ground in a fit, friendless. She was carried to the hospital, where she soon recovered and such was the impression she produced he was provided with abundance of clothes and money, and respectable a position was her career for her out of the city. She remained one day, when she returned to her old haunts and habits. The next two months she will spend at Deer Island."

Official Visit to the West.

Gr Fridy last the Commissioner on Indian Affairs, Gen W Mas penny left Washington on a mission to the Frontier Indian tribes of Nebraska. The leading feature of the duties with which he is charged will be to enter into negotiations with the various tribes west of Iowa and Missouri, on the part of the President of the United States, with a view to preliminary arrangements for a recession of their rights under treaties to the separate tribal condition they now maintain, and a re-purchase of the soil within their respective reservations. This is done in conformity with the act of Congress of last session, and is intended as a first step towards the organization of a considerable portion of the Indian territory into a new territory of a character similar to Minnesota, Oregon &c.

Besides his principal object of the commissioner, there is another and very important one—that of making himself acquainted by observation on the spot with the actual state of Indian affairs out West, which, as seen from Washington, under circumstances very liable to partial rather aberration require occasional inspection of a closer character to ensure correctness.

And a third, though incidental, duty will probably present itself in the ascertainment of all the facts relative to the complaints made by the Pottawatamie Indians, who have recently been in Washington, of heavy, and as they allege, unauthorised payments of money by their late agent, to parties claiming for services rendered the tribe.—*Nat Intel*

The papers give the particulars of the difficulty at El Paso, between the Mexicans and the Americans. It appears that a Californian named Kagel, who had been robbed of some cattle, went into the Mexican territory, and laid claim to some cattle belonging to the Mexicans and drove them over the line. He was arrested the next day and imprisoned, when the jail was attacked by a party of his friends, or the purpose of liberating him. They were repulsed by the Mexican troops, and two or three of their number were killed. The Californians then retired but it is said they are organizing a large body of men for the purpose of making a second attempt. There was much excitement among the Mexicans, and threats of vengeance upon the Americans were freely made.

The crops in the valley of the Great Salt Lake were backward, and high prices for provisions and vegetables ruled. The parties that arrived report no sickness on the Plains.

At last accounts from the South much excitement existed at Los Angeles, caused by the depredations of a band of outlaws, who had committed numerous murders and robberies. A mounted force had been organized, and suspected parties had been warned to leave within three days.

At Northfield, on the 12th instant, a lad named Warren Page inflicted a dangerous wound upon a lad named Johnson, by firing a gun at him, which it was supposed was not loaded. The entire charge of the gun passed through the unfortunate boy's arm, near his shoulder.

A dispatch dated Savannah, August 22 says that a fatal fever has made its appearance in Glascock and Gordon counties in Georgia, and already one hundred deaths have occurred. It is said whole families have been cut off by it.

It is stated that for some unexplained reason the works on the Newfoundland Electric Telegraph Line, have been suspended, and Mr Gisborne the superintendent, has left the province.

Lord and Lady Elgin were to leave Quebec on Tuesday on a visit to their native land. During the absence of Lord Elgin, the Government of Canada is committed to the care of Gen Rowan.

Accounts from Buenos Ayres state, that the Buenos Ayres Government paid Commodore Coe $300,000 to abandon Urquiza, and terminate the blockade of the city.

The Keene (N H) News states that Mr White, of Marlborough, who was injured by the Norwalk disaster, has received of the company $2685.

Recent experiments made in England by Prof Way, a skilful agricultural chemist, have demonstrated the fact, that clay will completely absorb or take the ammonia from water, and many other substances, and retain it.

The Chief of the Chinese Rebels.

The acknowledged chief of the insurgents is entitled by them Teen-wang, i e Heavenly King or Prince, the latter word being in his case equivalent to sovereign prince. In conversation he is sometimes called Tae ping Wang, Prince of Peace, but rarely, Tae-ping being the title of the projected new dynasty, not that of this individual monarch. The existence of any such person or title as Teen-wang was distinctly ignored by the Northern Prince, the highest chief seen, who said it was a phrase of "outside people," and nothing was heard of the re-establishment of the Ming dynasty.

No future mystery exists with respect to the Teen-wang or Heavenly Prince, and there is even room for doubt of his being still alive—The Imperialists all declare him to have died some months back, but with them the wish may be father to the belief. The insurgents all speak of him as living, but few, even of the long haired, except the higher leaders, could say they had seen him. He is said to come out occasionally in a large chair; but it is so completely shrouded in yellow silk, as to render the presumed occupant invisible. He is said to inhabit the Yamun of the Governor General, and our countrymen who rode past that establishment, certainly saw signs of its being occupied by a person of great importance. A consideration of all these various reports and statements respecting this extraordinary individual has led to the following impressions:

That he is probably still alive, and about 40 years of age, that his name is certainly Hung-sew-tseuen; that he is a native of the Hwa district, some twenty five miles from Canton, that he took the first, if not the second literary degree, but found his way to office barred, that he then turned his attention to the doctrines of Christianity, and was for a time indirect connection, more or less intimate, with a Protestant medical missionary at Canton, that he afterwards established in Kwang-se a community of Christians, composed of both Kwang tung and Kwang se men, that persecution compelled him and his co religionists to take arms in self-defence, and that at length a sense of double injustice and injury from the Government acting on an ambitious mind, strong feelings and an enthusiastic temperament, gradually brought him, as the success of his arms increased, to the belief that he was the recipient of a divine mission to exterminate the Manhoos, abolish idolatry, and found a new Christian dynasty.

We are told that, after a perusal of all the books brought from Nankin, no sign has been detected in anything purporting to have emanated from the Chief himself at a claim to a peculiar son ship to the Almighty. He calls God the Heavenly Father, but the books obtained speak most distinctly of God being the Father of all human beings, and the designations ems to be used exactly as we ourselves employ it. He also calls Jesus Christ the Heavenly (elder) Brother; but this appears to be the only equivalent phrase left in the language to express our "Son of God," the term "Teen tsze, Son of Heaven, having been degraded by its long application to the Emperors of China. In Chinese there exists no word exactly equivalent to our common term, "brother." There is one which means "elder brother," and another signifying "younger brother." As the latter always implies a distinct and practical subordination, only the former could with propriety be applied to their Lord or Savior, by these Chinese Christians. From these various circumstances it is concluded that "Heavenly (elder) Brother," expresses in the ideas of Hung sew-tseuen, no special relation to the latter, but simply the brotherhood of the Son of God to the "Children of God" generally. It is one of the most recently dated publications of the insurgents, the cluster "Trinitarical Classic, emanating from whom is not said, where unmistakeable claims to a direct divine origin, a son-ship of God and exalted ship to Jesus Christ are put forth on behalf of the Heavenly Prince. Are we to consider this an indication that the ruling spirit has already departed from the camps of the insurgents, and is now undergoing a process of deification in the hearts of admiring and affectionate followers?

In Nebraska, refinement is so little known that the young ladies clean their teeth with corn cobs.

Experience has fully proved that clover and wheat will not winter kill when the water has been removed by underdraining.

Grace Greenwood returned home in the last Europeans steamer, and is now on a visit to Boston, for the purpose of putting to press her travels in Europe.

It is expected that a grand yacht race will take place in Boston Harbor about the 10th of September. Three or four valuable prizes will be awarded.

A large ice house near Bacon's bridge, in Winchester was destroyed by an incendiary fire, about 7 1-2 o'clock, on Tuesday evening.

GOD IS LOVE

I love to wander by the brook,
And into nature's volume look
I love it for it helps to prove
"Our Saviour is a God of Love."

I love the lightning's vivid flash,
I love the thunder's pealing crash
I love the bright sun's dazzling light,
For these proclaim that God is mighty.

I love the River's rapid flow
I love the mountain's ruddy glow
They are like Angels from above
Bright emblems of a Father's love.

Morning and Evening.

Those who desire to obtain a thorough knowledge of the true principles of Penmanship, and exhibit business-like way of executing the same are reminded that MR. SCRIBNER, who has been instructing some eight or nine hundred scholars in this city within a few weeks, with remarkable and gratifying success, will on Monday next form new classes at his room on Harlow street. His system is natural and easy giving a clear illustration of the art, and imparting a uniform, graceful and distinct style of writing. Therefore, considering the worth of ready skill in the art we say to old and young, patronize the school, and our word for it you will be surprised at your improvement.

WONDERFUL AND EXTRAORDINARY CURE OF RHEUMATISM OF TWENTY YEARS' STANDING.

Never in my life have I had so much pleasure in doing any thing as in giving this certificate to the world, and I hope it may be the cause of thousands of my fellow creatures being relieved from that terrible disease rheumatism. My wife has been afflicted with it for twenty years; most of the time suffering excruciating pains in every part of her body. Having at times tried almost every medical remedy without success, she was at one period reduced to a skeleton. So virulent were the pains that she seldom could sleep without taking large doses of opium. Every joint was swelled very much, and her knees, hands, and back covered with large lumps. So exquisite do some kind of work the nerves and muscles become so hard and contracted that her limbs were drawn together, so that she was obliged to be in a bed constantly. In this condition she had been for twenty years without ever getting any relief from every thing she used, until she commenced the use of H G FARRELL'S ARABIAN LINIMENT, the first bottle of which produced a great change. She has now used five bottles and the swellings have nearly all gone down, pain has entirely left her, she sleeps well and soundly, is more fleshy than she ever was in her life, has an excellent appetite and is indeed a well woman. By the use of a few bottles more she may be as well as ever she was. If any one doubts this wonderful cure he is only to call at my residence near Peoria, and learn the facts from my wife's own lips. If he can further inquire of any of my neighbors.

SAMUEL ELSON.

H G FARRELL'S ARABIAN LINIMENT is also an excellent remedy for palsy, sprains, bruises, cramps, chilblains, burns, pains, toothache, sore eyes etc, and is based on facts as to its power in the world where all external application is required.

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit which has lately made its appearance, called W. Farrell's Arabian Liniment, the word Arabian is all the counterfeits, because he has having the name of Farrell in my will buy it in good faith, without the knowledge that the counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its wonderful effects.

The genuine article is manufactured only by H G Farrell sole proprietor and proprietor, and wholesale druggist, No 17 Main Street, Peoria, Illinois to whom all applications or Agencies must be addressed. Be sure you get it with the letters H G before Farrell's name—H. G. Farrell & Co—as the signature on the wrappers, all others are counterfeits.

Great Excitement! Among Carriage Makers.

THE subscribers have purchased the right to make, use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis, Waldo, Hancock, Washington and Aroostook. The advantages of the above Coupling, over the old method of connecting the main part of the Carriage with the front part, is such that it must come into general use when it is properly understood. High forward wheels can be used, and we get rid of the galling irons, as the wheels do not strike the body, and the carriage turns in a very small compass, the hind wheels not describing more than 4 to 6 feet circle. It is perfectly simple, and not so liable to get out of order as the old method. Those who have used the above are fully satisfied of its utility, as certificates below show. It can be attached to old carriages at a small expense, and we are prepared to sell the right for shops, towns, and would sell a part of the above named Counties, at such a rate that any smart man, with a small capital could realize a great profit from the sale of the above. Any person wishing information will receive immediate attention at our place of business, or by dropping us a line by mail, post-paid.

We have leave to refer to Messrs. B. Norcross, Chase & Littlefield and C. S. Coe, Esq., who are using the same. D. W. MORRILL & CO. Corner of York and French streets.

Bangor, July 22, 1853

This certifies that we, the undersigned, have examined Everett's Patent Coupling and think it an excellent improvement, and have bought rights for using the same.

The Best Pills in the World.

HARDY'S FAMILY VEGETABLE CATHARTIC PILLS are the best that can be found in any country for Jaundice, and all Bilious troubles, Dyspepsia, Colds, Rheumatism, and every complaint in which the stomach or bowels need evacuation or regulating. Yankees have boasted their unequalled skill and talent for every thing that the human head can devise or hands execute; why, then, turn with admiring and confiding eyes towards every new medicine with a foreign name? Yankees can, and do, beat all creation in every thing they attempt. Then discard your Mustang, Kangaroo, Ichneuman, Hyena, and all other such heathenish medicines, and call at Hardy's, No. 3 Harlow's Block, where you will find, not only the best Pills, but the best Medicines in existence "for all the ills that flesh is heir to," (except lean pockets) and the best Horse and Ox Medicines besides. Sarsaparilla, Yellow Dock, Wild Cherry, Prickly Ash, Dandelion, Thoroughwort, and Rhubarb

ROOT and HERB BITTERS!

Decidedly the greatest Medicine in the world for the least money.

"Buy me and I'll do you good."

THIS invaluable compound has now been before the public three years, during which time nearly *Three Hundred Thousan Bottles* have been sold, thus proving it the most popular Medicine of the age. No poisonous drugs or minerals, such as Opium, Antimony, or Mercury, or any of their hydrates headed, I fail to say, compose any part of these Bitters. The medicinal virtues of the best Roots, Herbs, and Barks in the world are so compounded as to act in concert with nature They cure and eradicate from the system I ver Complaint,—third mam wheel of so many diseases,—Dyspepsia, Dull Stupefy, Costiveness Humors of the Blood and Skin, Indigestion, Sick Headache. Female Complaints, Debility and decline. Langley's Bitters are just the thing to obviate all diff culties of the kind They regulate the bowels, stimulate the circulation, purify the blood and by a constant use keep off diseases so common in Spring and summer. Coughs and Colds are of its use broken up and cured at once, in short, this medicine is safe for all ages and conditions and in all climates It always does good, but never does hurt No lying certificates, no flaming handbills or costly wrappers are used to sell it into notice. All who try them will say, as more than 200,000 persons can testify, that one Bottle will do them more good than forty Latin prescriptions of poisonous drugs, by which so many persons are annually killed

The effect of this medicine upon the system is most wonderful—Its healing, cleansing and purifying qualities operate with magic-like power upon all sicknesses of diseases for which they are recommended. All who use them like them, because they are what they represent to be.

AGENCY FOR BUSINESS

WASHINGTON.

No. 22 State Street, . . Boston.

IMPORTANT TO INVENTORS The sub-scriber (late Agent of the U S Patent Office, under the Act of 1837) determined to procure advantages in applying for patents superior to those offered my clients by others has made arrangements whereby no applications are prepared and filed in the United States Patent Office which I attend personally, and the whole business of which is conducted under my own supervision. Inventors will find it to their interest to call on me before applying for patents in the United States, or any foreign country, as I am prepared, and confident I can procure for them more ample and favorable protection than can be obtained elsewhere.

Having been engaged in the business of procuring patents for inventions for the last seven years, I am enabled to give such information as will be required in each particular case, without charge, and to make such examinations at the Patent Office, as may be necessary to determine the patentability of inventions. All drawings and specifications executed on reasonable terms, and with dispatch.

Models of inventions should be forwarded to me by express, carefully packed, and marked with the name of the inventor, and the express charges paid. They should be received at my office in Boston, if practicable, as they can be more conveniently transmitted to Washington from this place than from any other. Small models can be sent by mail.

Inventors who may visit Boston are respectfully invited to call at my office, examine my facilities for business, and learn my terms, before employing any other agency.

To the readers of the Whig.

Will you read the Truth.

MEDICINE must have merit and great merit or it can no stand the test to public opinion No sort of puffing can continue a worthless article so as to keep it alive as a *good medicine* if it be not simply so

A good medicine will live become popular, and extend its sales year after year in spite of opposition for people readily find out its virtues, and from mouth to mouth with more rapidity than newspapers can spread it A living witness testifying to the cure that a medicine has made for him, is of far more service than any newspaper advertising

In regard to what we say above, we refer you to HAMPTON'S VEGETABLE TINCTURE, and office Its practice on the mouths of multitudes This last mentioned our country give them testimony to its wonderful cures Among them is one Hon Henry Clay, Hon Richard M Johnson Vice President of the United States, with hundreds others Capt Thomas Sumner—Brother to the celebrated physician of the Emperor of Brazil—was cured by it of a disease of seven years standing after the skill of the doctors of Europe and America had failed

In the United States Navy it is taken with great success, several officers being cured by it, officers of the Department, Washington, speak of its wonderful cures

The poor, the rich and the poor, young and old, in every place, in the city and country, and the same success attends its use

HAMPTON'S VEGETABLE TINCTURE is pure vegetable, and warranted free from all mineral substances Plain tincture, by its mild, peaceful action on the stomach, liver, kidneys bowels, and the nervous system cures Dyspepsia Liver Complaint Diseases of the Urinary Organs, Colds Asthma Bronchial Affections Consumption, Scrofula, King's Evil, Worms, Rheumatism Gout, Salt Rheum St Vitus Dance, Fits Nervous affections generally Female Ills, Piles, Bowel Complaints with all diseases arising from impure blood are a remedy for the various derangements of the female system, it seems to have no superior.

We would see use of the purse, in introducing this valuable remedy to those who have such troubles and give it a fair trial We shall publish in this paper, from time to time, testimony from persons whose reputation is known throughout the United States, and who have been entirely cured from Indigestion, Consumption, &c, &c, after every other remedy and physician had failed It is no humbug, and the public will be satisfied that what we say is TRUE, after a fair trial

Dr. Morse's Celebrated Indian Vegetable Tincture

DR. HAMPTON, now in his 77th year, was early in life much reduced by disease, had spent much of his living in medical advice and every nothing after, but without relief, when finding that none of the remedies medicines could reach his case, he came to the conclusion to try some herbs that grew around him, in the confident belief that as the Creator has provided in his regard for the human race with all things needful for the support of life, that in the vegetable kingdom would be found a remedy for the diseases of the human system, and in this conclusion he was not disappointed, for by the use of the herbs of which his Tincture is composed, he restored himself and family suffered from confirmed bad health, arising from disorders of the Liver and Stomach in digestion, loss of Appetite, violent Head aches, pains in the side, weakness and general debility which he consulted the most eminent Physicians in the colony but we boast any beneficial relief at last she had recourse to your invaluable Tincture which she commenced using each bottle, and before she had used three bottles found herself entirely restored to health and strength Further she desires me to say that she has witnessed their extraordinary virtues in those complaints, incident to child bed, particularly in cases of Measles and Scarlatina having effected cures of these diseases with no other remedy (Signed) S GOMIN

These celebrated Pills are wonderfully efficacious in the following Complaints

Ague	Dysentery	Jaundice	Scrofula or King's Evil
Asthma	Dysentery	Liver Complaint	Stone and Gravel
Bilious Complaints	Female Compla
